- HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, Media Queries

Backend:
- Python , Django , REST API

Database:
- MySQL , SQLlite

Version Control / Tools:
- Git, GitHub

AI Tools:
- Claude , Stitch , Chatgpt , NotebookLM

Soft skills:
- Adaptability , Work Ethic , Communication

EXPERIENCE

Python Developer – AmarInfoTech, Navaraangpura - Ahmdedabad

- Developed responsive web interfaces using HTML, CSS, Bootstrap, and Tailwind CSS
- Implemented interactive features using JavaScript and jQuery
- Gained practical experience in backend development using Python
- Built and managed basic web applications using Django framework
- developed and handled database operations using MySQL and SQLlite
- Worked on integrating frontend with backend for dynamic web applications

PROJECTS

- **Watch E-Commerce Website**: Developed a full-stack e-commerce platform with role-based admin panels, product management, order tracking, and secure user authentication using Django.
- **College Placement Management System**: Built a role-based placement portal enabling student registration, job applications, recruiter management, and application tracking using Django and MySQL.
- **AI Chat Application (Ollama + Llama3):** Created a locally hosted AI chatbot with multi-session chat support and a ChatGPT-style UI using Django and Ollama (Llama3).
- **Face Scanner Gym Entry System:** Developing a face recognition-based gym entry system with automated attendance tracking and admin dashboard using OpenCV and Django.
